

QA Summary Report

demoblaze.com · May 2026 · Author: Mass Frat

Manual QA testing was conducted on **demoblaze.com** across 5 functional areas: Login, Browse, Cart, Checkout, and UI. A total of **20 test cases** were executed over 3 days resulting in **16 passes (80%)** and **4 failures (20%)**. Eight bugs were identified — 1 Critical, 1 High, 3 Medium, and 3 Low. The site is **not recommended for release** until the critical credit card validation issue is resolved.

RESULTS OVERVIEW

TOTAL

20

cases executed

PASS

16

80% pass rate

FAIL

4

20% fail rate

BUGS

8

logged in Jira

IN SCOPE

User login & logout Product browsing Add to cart
Remove from cart Checkout form Navigation links
Responsive layout (375px) Form validation

OUT OF SCOPE

Payment processing Admin panel Email notifications
Performance testing Security / penetration

TEST ENVIRONMENT

URL	demoblaze.com
BROWSER	Chrome 148 / Firefox 150
DEVICE	Desktop / Mobile (375px)
OS	Windows 11
TEST CASES	Google Sheets
BUG TRACKING	Jira (free tier)
SCREENSHOTS	Snagit / Lightshot / Windows 11

TIMELINE

Day 1 Write 20 test cases in Google Sheets
Day 2 Execute all test cases on demoblaze.com
Day 3 Log bugs in Jira and write summary report

ENTRY & EXIT CRITERIA

START TESTING WHEN	STOP TESTING WHEN
✓ Site is accessible	✓ All 20 cases executed
✓ Test cases are written	✓ All bugs logged in Jira
✓ Test account is created	✓ Summary report written

RISKS & ASSUMPTIONS

Demo site may be unstable or reset periodically	No real payment data will be used during testing
Testing is manual only — no automation	Site data may not persist between sessions

BUGS OBSERVED DURING TESTING — 8 TOTAL

TC REF	SEVERITY	DESCRIPTION
TC-016	Critical	Order completes with any random credit card input — no card format validation exists.
TC-012	High	Cart total does not update after removing an item — requires a full page refresh.
TC-015	Medium	Checkout validation message not field-specific — mentions both fields even when only one is empty.
TC-010	Medium	Guest users can add items to cart without logging in — no authentication enforced.
TC-020	Medium	Product images cut off on right side using mobile at 375px width.
TC-018	Low	Console warning on page load — VideoJS plugin registered multiple times.
TC-005	Low	Typo in error message — "This user already exist" should read "already exists".
TC-011	Low	No cart item count badge visible in the navigation bar.
TC-003	Low	No inline field validation on login form — uses plain browser alert only.

RECOMMENDATIONS

✔ WHAT WORKS WELL

- ✓ Login and logout flow
- ✓ Product browsing and category filtering
- ✓ Product detail pages
- ✓ Multi-item cart management
- ✓ Checkout happy path with valid data
- ✓ All navigation links
- ✓ Long text input handling

✗ WHAT NEEDS FIXING

- X Credit card input accepts any value — Critical
- X Cart total not recalculating after deletion — High
- X Checkout validation not field-specific — Medium
- X Guest add-to-cart with no login prompt — Medium
- X Product image cut off on mobile 375px — Medium
- X VideoJS console warning on load — Low
- X Typo in registration error message — Low
- X No cart item count badge in nav — Low
